Purpose of the plan

This plan examines potential risks and issues that could cause disruption to the management and administration of the exam process at Red Balloon - Norwich. By outlining actions/procedures to be followed in case of disruption, it is intended to mitigate the impact these disruptions have on our exam process.

Alongside internal processes, this plan is informed by information contained in the **Joint Contingency Plan for the examination system in England, Wales and Northern Ireland** where it is stated that "*Centres should prepare plans for any disruption to examinations as part of their general emergency planning. It is important to ensure that relevant centre staff are familiar with the plan. Consideration should be given as to how these arrangements will be communicated to candidates, parents and staff should disruption to examinations occur.*"

Causes of potential disruption to the exam process

1. Examinations Officer extended absence at key points in the exam process

In a period of extended absence the Head of Centre would take responsibility for carrying out the duties of the Examinations Officer. All members of the invigilating team receive annual training through The Exams Office and those involved in the administration of key processes are trained by the Examinations Officer on how to carry out processes and who to contact in extremis.

2. SENDCo extended absence at key points in the exam cycle

In the event of the extended absence of the SENDCo, appropriate back-filling of responsibilities would be decided upon by the Head of Centre.

3. Teaching staff extended absence at key points in the exam cycle

In the event of a period of extended absence of a member of the teaching staff, the Head of Centre would arrange teaching cover from within the staff team and/or the wider staffing establishment at the Red Balloon Learner Centre Group. New staff providing cover would be briefed as part of their induction process on arrangements for assessment and examinations. Their practice in terms of assessments would be monitored by the Head of Centre.

4. Invigilators - lack of appropriately trained invigilators or invigilator absence

School staff are required to assist during main exam sessions and undertake annual invigilator training through The Exams Office and are trained by the Examinations Officer with regard to their additional responsibilities and duties. Minor absence issues (such as an invigilator calling in sick) are covered by a member of the trained staff team.

5. Exam rooms - lack of appropriate rooms or main venues unavailable at short notice

The examinations are accommodated within the centre.

6. Failure of ICT systems

The school endeavours to minimise any ICT disruption via resilient design and preventative maintenance. In the event of an issue this would be dealt with by the ICT support team (TECNiA Digital) who prepare, test and update the systems on a regular basis. Where such failure impacted on scheduled exams, steps would be taken to resolve the problem as quickly as possible.

7. Centre unable to open as normal during the exams period

In the event of the Centre not being able to open as normal, appropriate communication with the relevant Awarding Bodies would be undertaken by the Examinations Officer and alternative options would be explored such as moving exams to an external location. All arrangements would be agreed with the Awarding Body before being put in place. In such instances, details would be communicated to candidates via the school's website, email and text facilities. Staff involved in exams (including invigilators) would be contacted by email, telephone or text.

8. Candidates unable to take examinations because of a crisis – Centre remains open

Response is dependent on the type of issue. The procedure for absence is outlined in the examinations policy. If a candidate is able to sit the exam but cannot attend the Centre due to a crisis, appropriate communication with the relevant Awarding Bodies would be undertaken by the Examinations Officer and alternative options would be explored (home, hospital, alternative Centre etc.). Appropriate use of Special Consideration would be applied should the candidate(s) be unable to attend due to unforeseen circumstances and where alternative arrangements could not be made or are not agreed by the Awarding Body.

9. Disruption to the transportation of completed examination scripts

All scripts are returned using the designated dispatch methods prescribed by the Awarding Body concerned. Where this becomes unavailable or inappropriate, the Awarding Body will be contacted to discuss suitable alternatives.

10. Assessment evidence is not available to be marked

In the event of large-scale damage or destruction of completed examination scripts/assessment evidence before it can be marked, the Examinations Officer would notify the Awarding Body immediately for advice and further instructions. Student marks would be submitted based on appropriate evidence and candidates would be given the opportunity to retake in a subsequent series.

11. Centre unable to distribute results as normal

The Centre distributes the results 'as normal' via collection by learner. Where learners do not collect results in person, these will be distributed via private e-mail address or first class post.
